

The
Pap Corps
Champions for Cancer Research

CORAL LAKES CHAPTER

Our Coral Lakes Chapter was started in 2000. Since then we have grown to over 600 members and are committed to running fundraising events and soliciting contributions so we can continue to see the doctors and researchers we fund dedicate themselves to finding new diagnostics capabilities, new treatment options and in some cases, a cure for some cancers.

We welcome and invite all our Coral Lakes residents, men and women, to become a member of our Coral Lakes chapter and help us to achieve our vision. I want to thank our members and our neighbors who are not yet members for supporting our fund-raising events.

Come join us. What we do makes us feel good. We want a world without cancer so that our children and grandchildren can one day be cancer free.

Our website has been created to provide information on The PAP Corp, how to join our chapter and participate in our fundraising. Please contact me if you have any questions.

Sincerely,

Arlene Orkin
