

It is an honor serving as President of the Coral Lakes Chapter of The Pap Corps. As a three-time cancer survivor The Pap Corps has been very important to me since 2003 when I first had the opportunity to learn what The Pap Corps accomplished on behalf of all types of cancer research and I started to go to chapter meetings.

Since then I have been actively involved in raising funds serving on the board of the Valencia Pointe and Coral Lakes chapters. It has been a privilege to be a part of this dynamic charitable organization and to see the incredible results our contributions provide to advance vital cancer research at Sylvester Comprehensive Cancer Center.

The Pap Corps is the largest volunteer cancer fundraising organization in South Florida raising funds for cancer research for more than 70 years. To date The Pap Corps has provided donations of over \$110,000 million to Sylvester Comprehensive Cancer Center, University of Miami, Miller School of Medicine. The Pap Corps is a dynamic and dedicated force of over 20,000 men and women in over 50 chapters in South Florida. Most of the chapters are in Palm Beach County. Our headquarters is in Deerfield Beach Florida and everyone works together with the vision to imagine and help create a world without cancer.

Our Coral Lakes Chapter was started in 2000. We have grown to over 600 members and we are committed to running fundraising events and soliciting contributions so we can continue to see the doctors and researchers at Sylvester Comprehensive Cancer Center dedicate themselves to finding new diagnostics capabilities, new treatment options and in some cases, the cure for some cancers.

Come join us. What we do makes us feel good. We welcome all residents of Coral Lakes to become a member of our Coral Lakes chapter and help us to achieve our vision. We want a world without cancer so that our children and grandchildren can one day be cancer free.

Sincerely,

Arlene Orkin
