Ilene Rallo

### Presidents Message

Cancer. It's a word none of us wants to hear in relation to ourselves, our family, our friends and even our acquaintances. Sadly, it is a diagnosis too many of us have had to endure in relation to someone we know and love. That is the reason that we in The PAP Corps work as hard as we do raising funds to enable the groundbreaking research at Sylvester Comprehensive Cancer Center. Our chapter of over 600 members is a formidable one. Our Board of Directors works diligently to come up with fun and innovative programs to engage our members actively in our fundraising efforts. In spite of the restrictions we faced due to the ongoing pandemic, our chapter managed to raise an unprecedented \$94,000 to donate to Sylvester. We deserve to be truly proud of ourselves for this outstanding accomplishment. However, we cannot take a step back and rest on our laurels. Rather, we need to step up our efforts as cures are becoming more and more unearthed through the efforts of the fabulous doctors and researchers at Sylvester.

This year promises to be filled with new and exciting programs and events.

- Learn how to avoid scams which are difficult to detect at our October 25<sup>th</sup> General Meeting.
- Cheer your horse to the finish line at our much anticipated November 12<sup>th</sup> A Nite at the Races.
- Treat yourself to a special afternoon at The Wick Costume Museum, an interactive experience including a gourmet lunch and cabaret show.
- Spend an afternoon shopping, eating, and playing with friends and neighbors at the Winter Card Party on January 12 at Boca Pointe Country Club.
- Join your fellow members as we gather once again at our Walkathon on Sunday, February 5 at Canyon Town Center.
- Psych yourself for an evening of magic and mind games as our Mentalist thrills you on Friday, March 10.
- Put your mah jongg skills to the test! Join the fun at our mah jongg tournament on March 30 at the Tivoli Lakes clubhouse.
- Close out the season at our General Meeting on March 28.

We are looking forward to another successful year on our important journey.  
 Thank you for your continuing support!!

# In the Spotlight

*Miriam Schwartz & Karen Simat*

This month we highlight two very special ladies, Miriam Schwartz and Karen Simat. They are an indispensable part of our chapter and manage all jobs involved with membership. These two ladies have been friends for fifty years and together they make a skilled team. In addition, they are always ready to assist with any task needed. They both utilize their organizational skills and make the challenging job of membership seem easy. Since our chapter is so large we know this is quite a hefty responsibility.

Miriam was born in Freehold, New Jersey where she began her career as a special education teacher. She later moved to Cambridge, Massachusetts where she earned a master's degree and went into administration. Meanwhile, Karen grew up in Boston where she began her career as a biology teacher. After a few years she also worked in administration. Upon their retirement, both ladies split their time between Cape Cod and Florida. After a few years of traveling back and forth between two residences, they decided to make Tivoli Lakes their permanent home base. Of course, they became active Pap members; but in 2013 they took over the responsibility for our chapter's membership. Record keeping is a challenging job and they keep track of all membership - annual, life and new recruitment. Their computer knowledge in record keeping is exemplary. Both Karen and Miriam share high praise for the support they receive from the staff at the Pap Corp's administrative office. It has helped them improve the way membership data are recorded.

## PAP CORPS PRESS – NEWS!!!

The Pap Corps Champions for Research is helping usher in a new era of break throughs in personalized care, cancer prevention, and education. Together we will advance equitable patient care to improve empower and heal the lives of those affected by cancer.

Sylvester is constructing the Transformational Cancer Research Building, a 12-story premier cancer research facility that will bring new hope to patients in South Florida and beyond.

Sylvester said, “They cannot achieve their goal without transformative philanthropy.” The Pap Corps support advances our efforts to make a difference in communities we serve and in the lives of the people we love.”

Sylvester Comprehensive Cancer Center is making another bold move to accelerate cancer research, celebrating the groundbreaking for a 244,000-square-foot, state-of-the-art Sylvester Comprehensive Cancer Center - Transformational Cancer Research Building (TCRB).

Slated to open in 2024, the striking 12-story Sylvester Comprehensive Cancer Center - Transformational Cancer Research Building will be a hub for cancer research, innovation, wellness, and patient-centered care.

“As the only cancer center in South Florida designated by the National Cancer Institute, our mission is to pioneer groundbreaking cancer research, innovate, and advance cancer cures. To fulfill this mission, Sylvester is constructing a premier cancer research facility that will bring hope to patients in South Florida and beyond,” said Stephen D. Nimer, M.D., director of Sylvester Comprehensive Cancer Center and executive dean for research at the Miller School.

The TCRB, being built at 1425 N.W. 10 Avenue, Miami, will be an ultramodern patient care and research facility to support new and emerging directions in cancer treatment. It will be an iconic building, new to the South Florida skyline, that fosters collaboration and team science, attracting more top-tier researchers to the Sylvester team.

Located in one of the most diverse populations in the U.S., the TCRB will harness its geographical position to work toward eliminating racial, ethnic, cultural, and other cancer care disparities.
