MISSION

To enable and support through the funds we raise, the vital research programs at Sylvester Comprehensive Cancer Center, University of Miami Miller School of Medicine.

A Letter From Susan Dinter, The Pap Corps' New Chair

Dear Pap Members,

Recently, The Pap Corps' Board of Directors sent a letter to all members announcing our annual Sylvester gift amount of \$2 Million Dollars. We would have made this announcement at the May 14th President's Meeting. But, what all of us have been going through these past few months is unprecedented. There are days I feel like I'm living in a Twilight Zone (remember Rod Serling). None of us could have ever imagined this pandemic and the effect it

has had on us, our families, and our friends. All of our Chapters have had to cancel fundraising events, and in many cases, have been required to give refunds. But, despite everything, The Pap Corps, because of all of you, will survive this. Cancer does not take a break, and neither can we! We cannot forget all those who have survived cancer and those who are presently battling cancer and will become our next survivors.

Before I go any further, please let me take a moment to introduce myself. My name is Susan Dinter and I have been a Pap Corps member for 14 years joining Pap shortly after moving to Florida from New Jersey with my husband, Ed. Who had ever heard of Pap? But, being an advocate for cancer research after losing my father to brain cancer, becoming a Pap member seemed like a perfect fit. I started working for different fundraising events in my chapter, Ponte Vecchio, and then eventually became a Co-VP Fundraising. Next, I became the Executive Vice-President, the President for two years and then Co-President for four years. Something else to know about me... I am 5-years cancer-free thanks to Pap's extraordinary referral program and the caring doctors at Sylvester Comprehensive Cancer Research Center. I am extremely honored to become the new Chair of The Pap Corps. I take great pride in being a part of this organization, along with all the hard-working individuals that make-up The Pap Corps membership.

There are a few people that I would like to honor by thanking them for their leadership, dedication, and many years of service to The Pap Corps.

First, our Past Chair, Linda Moses. Linda has been a tireless and dedicated leader who has inspired so many of us. To me, she has been someone that I greatly admire, a mentor and a friend. I am thankful that she will remain on the Board as the past Chair.

Secondly, we are sorry to announce that our Secretary, Stavroula Christodoulou, is stepping down. Stavroula has always been the voice of

continued on page 3

wisdom and calm for the Board. I am grateful that I was able to serve with her for two years, but I wish it could have been longer. She will be greatly missed on the Board.

I would like to welcome Paula Karp, our newest member of the Board of Directors. Paula was the President of the Boca Friends Chapter for a number of years. Paula, I know, will bring fresh new ideas and a great understanding of the Pap Corps with her to the Board. Welcome Paula, I look forward to working with you.

Let me now introduce the members of your Board of Directors:

- David Beckey – Treasurer
- Nancy Levinsohn – Secretary
- Beverly Berkowitz – Officer-at-Large
- Doreen Heisler – Officer-at-Large
- Rayna Becker – Director
- Elliott Booth – Director
- Sharon Goodhart – Director
- Melissa Schwartz – Director
- Ruth Young – Director
- Sharla Manglitz – Director
- Paula Karp – Director
- Linda Moses – Sitting Past President.

Many thanks to these dedicated men and women for all their hard work.

Next, I would like to thank our wonderful staff. They are hard-working individuals who are dedicated to their jobs at The Pap Corps. Special thanks to Stacia Anderson, CFO, who has stepped up and gone beyond to help us get through these past few months.

Most of all, many, many thanks to our members. You are the backbone of this organization and with all of us working together, we will get through these trying times. I look forward to when all of us can once again get back together.

Thank you for all that you do,

Susan Dinter

Susan Dinter
Chair
Board of Directors

A Letter of Gratitude from Linda Moses, The Pap Corps' President from 2016-2020

Dear Pap Corps Members ,

It has truly been an honor and a distinct privilege to have been a part of The Pap Corps leadership team and having served as your Board of Directors' President/Chair these past four years. In my first "Message from the President" in 2016, I wrote that it was with "humility and exhilaration" that I was stepping into the role of President. I was humbled by our legacy and the limitless efforts of our membership and exhilarated by the opportunities to fulfill our Mission of raising funds to support life-saving research programs at Sylvester. Those feelings have never left me. Much of what follows in this letter would have been shared with you at our May Presidents Meeting had it not been canceled.

The Board of Directors and Board Committee Chairs working with the Chapter leadership have accomplished much during the past four years. Our financial structure is now compliant with current 501(c)(3) practices due in large part to the efforts of our CFO, Stacia Anderson, who is also taking the steps required to prepare for us for the audit process. Our outdated Articles of Incorporation were revised to be in sync with our Bylaws via a successful Proxy Solicitation vote in July 2016—passed by a 99.4% margin of those members who voted (10,342 " Yes" votes and 61 " No" votes). Our operational structure has been reorganized and we are a cohesive and professional organization. We were a participant in Sylvester 's obtaining NCI designation with our September 2016 \$50 million pledge and allocating our donations from that pledge to key areas of research regarded by the NCI as being vital philanthropic designations for NCI comprehensive cancer centers. As of June 2020, our pledge balance is \$30,719,753. All funds donated to Sylvester by The Pap Corps are applied to our pledge amount.

We are in the final year of our three-year \$200,000 annual amount for **The Pap Corps Champions for Cancer Research Nurses Fund**; the second year of our three-year \$500,000 annual amount for **The Pap Corps Champions for Cancer Research Endowed Chair in Solid Tumor Research**; the sixth consecutive year supporting the Community Foundation of Broward 's **DePICT Trial** (Defining Platforms for Individualized Cancer Treatment) lead by Sylvester 's Jonathan Trent, MD., Ph.D. and for the fourth consecutive year providing \$200,000 (a \$100,000 increase over the matching amount from the Community Foundation); after funding the above yearly programs any remaining amount has been designated to programs in **Tumor Biology, Cancer Epigenetics, and Cancer Prevention, Control and Survivorship**. Our **Dr. Kevin Berkowitz Memorial End of Year Giving Initiative** supported Stem Cell Research in 2015; Pancreatic Cancer in 2016; Pediatric Cancer in 2017;

continued on page 5

Melanoma in 2018; and the Game Changer Vehicle in 2019.

Our partnership with Sylvester has grown to a new level of support and cooperation. The Development Office at Sylvester has both provided information and personnel support when requested as well as initiated exchanges of ideas with us. Sylvester leadership has consistently praised the dedication and efforts of our membership in many public venues and has continued the program of support for members seeking cancer care and treatment.

The success of The Pap Corps is a full team effort. None of this would have been accomplished without the insightful and supportive help of many people—beginning with our **Board of Directors**. They take their responsibilities very seriously, work very hard, and several not only give their time to The Pap Corps Board but are also active in their Chapters. First—and having resigned her position as **Secretary** in May, is **Stavroula Christodoulou, Ph.D.** Stavroula has been an oasis of special wisdom with a most insightful knowledge of human behavior. Her advice has been irreplaceable and she has always been available to share it. Thank you, big sister—from little sister .

Susan Dinter, Chair. Susan joined our Board of Directors two years ago. She has served responsibly and diligently as a Director and previously held leadership positions in her Ponte Vecchio Chapter for several years. Since being elected to Vice Chair by the Board, Susan has been working side by side with me for a year in all aspects of the position of Chair, including meetings I have attended with Sylvester leadership. I know and deeply believe that Susan will be an exemplary Chair of The Pap Corps. She is taking over the leadership at a time unknown before in our country's history. All of us are concerned about the future and our leaders need the passion and ability to handle ambiguity at an extraordinary level. Susan is capable of that task. **David Beckey**, a commercial lender with Seacoast Bank, stepped up as **Treasurer** almost two years ago. His 15 plus years with The Pap Corps Boards, as well as his banking experience, continue to serve us very well. **Nancy Levinsohn**, one of our more recently elected Directors and the former President of the Addison Reserve Chapter, will succeed Stavroula as **Secretary** in this most important position of recording the legacy of The Pap Corps for posterity. **Beverly Berkowitz** is in her second year as **Officer-at-Large** after serving five years as Vice President focusing on Development. She has lead initiatives such as: our participation in the Dolphins Cancer Challenge (DCC); Footloose and Cancer Free; Garden of Hope bricks and benches; Chapter Fundraising Workshops; End of Year Initiatives; and coaching individual Chapters with their fundraising. Beverly has been the bedrock of The Pap Corps fundraising efforts. **Doreen Heisler, Ph.D.**, an organizational psychologist, is in her second year as an **Officer-at-Large** governance guru. Governance is not the hottest topic, but a much needed one for nonprofit boards and we have worked together many long hours commiserating over Articles of Incorporation, Bylaws, Board restructuring, etc. Doreen is also the Chair of the Board Nominating Committee . **Director Rayna Becker** is a passionate voice on our Board sharing

continued on page 6

her many years of experience with The Pap Corps. She is also a Co-Chair of the New Chapters Development Committee. **Director Ruth Young** was our Treasurer for four years and her guidance was invaluable during the time of our reorganization. She kept us on a straight path as a CPA and former auditor, but did her magic by showing how we could accomplish certain financial requirements and also fulfil The Pap Corps' specific needs. Our most recently elected **Directors—Elliot Booth** (Co-Chair of The Pap Corps Men's Initiative), **Sharon Goodhart** (Co-Levels of Giving Vice President of The Polo Club Chapter), **Paula Karp** (Past President of the Boca Friends Chapter), **Sharla Manglitz**, and **Melissa Schwartz** have contributed new ideas and are active participants in our Board deliberations.

Our **Board Committee Chairs** provide guidance to the Board of Directors and needed assistance to our Chapter members: **Chapter Physicians Referrals—Barbara Pessel**, Chair, working with Marilyn Ochs, Roberta Oberman, and Jan Waramund; **Chapter Physicians Speaker Requests --Barbara Pessel**, Chair; **Development --Beverly Berkowitz**, Chair; **Finance and Audit—David Beckey**, Chair; **Levels of Giving-- Estelle Heyman**, Chair; **Membership --Bonnie Lipner**, Chair; **New Chapter Development--Rayna Becker and Bonnie Lipner**, Co-Chairs; **Recognition --Marsha Gold**, Chair.

As my concluding comments, I will share something written a few weeks ago in a letter to me from Adam Carlin, Chair of Sylvester Comprehensive Cancer Center Translational Institute Board of Overseers: "Unparalleled in membership, steadfast in commitment, and tireless in advocacy, there isn't another organization like The Pap Corps. We are humbled and grateful for this unique partnership."

Thank you Pap Corps Members for being the Best of the Best!!!

Linda Moses

Mrs. Susan Dinter
Chair
The Pap Corps Champions for Cancer Research
1191 East Newport Center Drive, Suite 107
Deerfield Beach, Florida 33442-7749

Dear Susan,

I am writing to express my deepest gratitude to The Pap Corps for your unwavering support of Sylvester Comprehensive Cancer Center and thank you for confirming your upcoming pledge payment in the amount of \$2 million for fiscal year 2020.

With the global COVID-19 pandemic gripping our nation and economy, we all know that these are unprecedented times. Yet, The Pap Corps remains committed and motivated in our joint mission in pursuit of cures. Against all odds, your organization has once again set the bar for amazing fundraising efforts and contributions toward cancer research.

As you know, our recent National Cancer Institute (NCI) designation places Sylvester among the top cancer centers in the nation. We could not have reached this momentous accomplishment without support from our incredible partners like The Pap Corps. The singular focus and steadfastness of The Pap Corps' 22,000 members enables us to achieve our goals year after year, growing Sylvester's reach, partnerships and capacity for radical innovation.

Your impact on our community and the many generations of cancer patients who have been treated at Sylvester is unparalleled. I am looking forward to personally welcoming you to the Sylvester Board of Overseers in June and celebrating Dr. Punnen's endowed chair installation in the Fall.

We have accomplished so much together, and I anticipate many more years of championing side-by-side toward a future that is cancer-free.

With deep appreciation of your tremendous support of our vision, we thank you again for standing with us in our fight against cancer.

Sincerely,

A handwritten signature in black ink that reads 'Stephen Nimer'.

Physician Spotlight

May has been designated as National Cancer Research Month. The goal of this month is to show appreciation for high-quality and innovative cancer research. This year, to help recognize this month, The Pap Corps started the Physician Spotlight. The spotlight highlights the dedicated team of researchers at Sylvester Comprehensive Cancer Center, one doctor at a time. Several doctors were profiled throughout the month. We would have loved to profile all of the doctors, but there are only so many days. Each Physician Spotlight includes the picture and bio of each doctor.

You can view each of the doctor's photos and profiles in their Physician Spotlight on The Pap Corps' Facebook page and website. The Pap Corps' Facebook Page is at <https://www.facebook.com/PapCorpsMainOffice/> and if you are not on Facebook, then you can also see the doctors on The Pap Corps' Website at <https://www.thepapcorps.org/doctors/>.

These incredible doctors have devoted their lives to help patients battle cancer and have saved many lives.

Remember, support from our Members is critical to helping Sylvester achieve ground-breaking treatments and create potentially life-saving new cures.

You can still view and donate to honor these doctors by going to <https://www.thepapcorps.org/doctors/>.

Please assist The Pap Corps with its Mission and help Sylvester get the support they need.

Remember, support from our Members is critical to helping Sylvester achieve ground-breaking treatments and create potentially life-saving new cures.

Are you a cancer survivor?

If so, The Pap Corps would love to hear your story.
Please contact rich@thepapcorps.org.

SUPPORTING THE NEXT SURVIVOR

THE JERRY PAULL STORY

Jerry & Karen Paull

Jerry Paull was told he had weeks to live but he was miraculously saved by one of Sylvester's dedicated doctors.

Jerry Paull, a long-time music promoter and Lifetime Pap Corps Member, was asked to get his affairs in order and say his goodbyes to his wife Karen, other family members, and friends. It was May 2019, and he was losing his battle with acute myeloid leukemia (AML), an aggressive form of blood cancer that almost guarantees death. Jerry was given only a few weeks to live and was ready to let go.

But nearly nine months after his horrific death sentence, he is healthy, happy, and back to a full life. This miraculous recovery from AML was possible because

of Dr. Justin Watts at Sylvester Comprehensive Cancer Center. Dr. Watts was able to help Jerry beat a disease that kills most patients over 60 within a year. He specializes in leukemia and realized that existing therapies, especially in older patients, is ineffective.

For over 40 years, the traditional treatments for AML have been

continued on page 11

Dr. Watts was able to help Jerry beat a disease that kills most patients his age within a year.

stagnant. The first choice to treat this disease is typically chemotherapy, but it usually returns. Other options, such as bone marrow transplants or high-dose chemotherapy, are generally not an option for patients Jerry's age who cannot tolerate such aggressive treatments.

AML is the second most common type of leukemia diagnosed in adults and children, with most cases occurring in adults. It will affect more than 11,000 people every year, according to The American Cancer Society. The disease has an extremely poor prognosis, especially for patients over 60. It is a rapid-growth blood cancer that starts in the bone marrow and is usually fatal within five years.

Jerry Paul started his battle with cancer at 76 when he was diagnosed with myelodysplastic syndromes (MDS), a litany of bone marrow disorders. As a result, he became weak, exhausted, and susceptible to various other diseases. Eventually, the severity of his symptoms and the constant support needed by his wife caused Jerry and his wife to put their life on hold. His condition worsened, and Jerry returned to the doctor

to find out why. After some blood work, the new diagnosis was AML. A devastating blow.

As everything seemed to be coming to an end, a friend at The Pap Corps insisted that Jerry get a second opinion from Sylvester Comprehensive Cancer Center. That is when

In October 2019, Jerry was told that he was in full remission.

he met Dr. Justin Watts. Dr. Watts discovered that Jerry had a rare mutation IDH2, and there had been recent successes treating this mutation. Jerry qualified for the drug called IDHIFA, which he started taking July 2019. In October 2019, Jerry received fantastic news... **he was in full remission!**

Dr. Justin Watts

To this day, Jerry Paul is still in remission. He thanks the innovative doctors at Sylvester and especially The Pap Corps for his remission. **The dedicated Members of The PapCorps raise much-needed funds that help Sylvester make miracles happen.**

Oncology Nurse Practitioner Fellowship Graduation

Future Nurses Supported by The Pap Corps

A virtual graduation for the Oncology Nurse Practitioner Fellowship Program was held on June 10, 2020. It is Florida's only oncology fellowship program developed for nurse practitioners and was accredited "with distinction" in December 2018 by the American Nursing Credentialing Center. Dr. Stephen D. Nimer, Director of Sylvester Comprehensive Cancer, presented the opening remarks with praise for Sylvester's nurse practitioners and thanked The Pap Corps for its

Dr. Stephen D. Nimer

Dr. Nimer thanked The Pap Corps for its support through The Pap Corps Nurses Fund...

support through The Pap Corps Nurses Fund which was founded in May 2018. The graduation was moderated by Maritza Alencar, DNP, MBA, APRN-BC, AOCNP, Director and Co-Founder of the Fellowship Program, and Director, Clinical Operations. The two graduates, Ivana Espinosa, MSN, APRN-BC, AOCNP and Mariangel Prieto, MSN, ARPN, NP-C, AOCNP, are highly accomplished with Ivana holding a

position in Psychology/Oncology and pursuing a post-graduate certificate and Mariangel doing research in the newly developing field of sexual health in oncology patients.

Ivana Espinosa, MSN, APRN-BC, AOCNP

Mariangel Prieto, MSN, ARPN, NP-C, AOCNP

After the presentation of diplomas, the closing remarks were given by Jessica MacIntyre, MSN, APRN, NP-C, AOCNP, Executive Director, Clinical Operations and Co-Founder of the Fellowship Program. Ivana, Mariangel, and Jessica were very appreciative in their praise for The Pap Corps. The Pap Corps Nurses Fund provides the following:

- Supports the Oncology Nurse Practitioner Fellowship Program in obtaining additional positions to train new oncology nurse practitioners
- Career and research development opportunities for nurse practitioners
- Assists in sponsoring nurse practitioners in obtaining their national oncology certification
- Provides assistance for a nurse practitioner representing Sylvester at a national professional association meeting where they have authored or co-authored an abstract or poster

The University of Miami, Sylvester Comprehensive Cancer Center’s Oncology Nurse Practitioner Fellowship provides specialized training for nurses in the management of hematological and oncological patients in a wide range of settings to ensure the best care. The nurses also gain the necessary skills to grow and strengthen their abilities within the clinical setting while learning to work together within a multidisciplinary team of healthcare providers. The fellowship offers the following training:

- Hematology and Oncology
- Adult Stem Cell Transplant and Cellular Therapy
- Clinical Research

The Pap Corps is very proud of Sylvester’s oncology nurses’ achievements and the indispensable role they play in helping to improve the quality of care and patient outcomes. We will continue to support our Oncology Nurses and advanced practice providers through scholarships and other programs. This assistance will offer them the opportunity to further develop their careers through certification and training.

Thank you to all our Members for helping The Pap Corps support this terrific program.

Sylvester Comprehensive Cancer Center Nurse Practitioner Oncology Fellowship is accredited with distinction by the American Nursing Credentialing Center (ANCC) through the Practice Transition Accreditation Program.

[Interactive Content: Click here to watch a video of Dr. Nimer presenting the opening remarks.](#)

TRULY A GAME CHANGER

Sylvester's Game Changer Vehicle - A Community Resource For Palm Beach & Northern Broward Counties

The recent Dr. Kevin Berkowitz memorial End of Year Giving Campaign will help fund the purchase, retrofit, and operations of Sylvester's 3rd Game Changer Vehicle.

The Game Changer Vehicle hopes to address the disparities in healthcare by bringing cancer screenings and health information to underserved communities in Florida. The vehicle is an air-conditioned recreational vehicle (RV) equipped with two private rooms for consultation, cancer screening, and a comfortable multimedia center for interactive education about various cancer-related topics. The Game Changer Vehicle that Pap Corps Members help fund will be operational in Palm Beach and Northern Broward Counties. The outside of the vehicle will be co-branded with The Pap Corps' and Sylvester Comprehensive Cancer Center's graphics and messaging.

Visitors can receive the following services for **FREE**:

- Education about cancer, cancer prevention, and early detection
- Screening for common cancers, counseling/referrals at other local resources, and cancer prevention opportunities.

Early cancer detection is vital to better cancer outcomes, and the Game Changer Vehicles help Sylvester reach more people and positively impact their health. Pap Corps members generously gave to support Sylvester's Outreach Program for our local communities!

Thank you for your tireless dedication to helping make sure our Mission continues.

This Year's Chapter Walks!

What a year it has been for a walk! With many unpredictable challenges, creativity was the key in 2020.

We are excited to have implemented an electronic avenue to help coordinate walk and other types of events. This has given those who chose to use it a better way of raising dollar support from their friends, family members, and other contacts worldwide. With a couple of clicks, our participants were able to recruit more donors and more dollars.

Several Chapters have expressed their happiness with the new platform and plan to continue to use it in the future. We hope more will jump on the bandwagon. Like so many other non-profits around the world, we are now able to use our new software in a way that can bring our fundraising efforts to new heights.

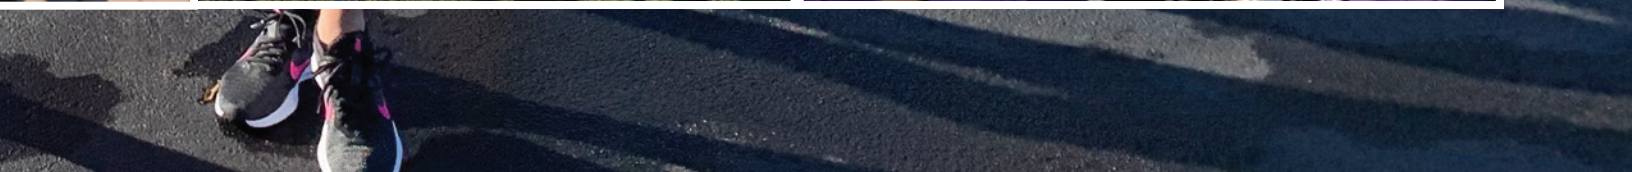

We are very happy to report that thanks to the dedication and support of our members this fiscal year, The Pap Corps Chapters planned on hosting a record number of walk related events. Thirty-one events were scheduled to take place from January through April. Some of our Chapters even partnered with each other for a joint celebration of survivorship.

All the walks had great success this year. Of course, there is that one glitch... with the presence of COVID19, unfortunately, there were a few chapters who had to place a hold on their events. However, nothing can get in the way of our spirit!

With the need for social distancing, our next steps included members from around South Florida sharing their selfies with our Facebook page, while they took their Laps for Pap! With this extension of our Walk program, we were able to request gifts of support via your cell phone, texting the word "Survivor" to our 80888 number.

We love our Members and appreciate all your hard work! Thank you and stay safe.

LAPS FOR PAP

Stay Connected Digitally

During the COVID-19 pandemic, our Task Force and Leadership has come up with creative ways to support Sylvester with new programs. One such program is called "Laps for Pap". This new program is a way for our Members to stay connected and fundraise while respecting social distancing. Members simply take a picture, email it to The Pap Corps, and we take care of the rest.

Many Members have already participated and contributed by following the steps below: During the walk or any activity, Members took a picture with their cellphone or had a friend or family member take their picture.

They emailed their picture to LapsForPap@thepapcorps.org. Members included their name(s), Chapter, and a short motivational message.

The pictures and messages are posted on The Pap Corps' Facebook page (<https://www.facebook.com/PapCorpsMainOffice>) and website (<https://www.thepapcorps.org/lapsforpap/>).

Friends and family could then donate and view the posts on The Pap Corps Facebook page or website. This is a great way to have some fun, stay connected, and raise much-needed funds for Sylvester.

There were **FIVE** donation options to choose from:

1. Cell Phone: From your cell phone, just text the word **SURVIVOR** to the number **80888**
2. Donate online on our website at: <https://www.thepapcorps.org/lapsforpap/>
3. Phone: Call Kathy at 954-425-8100 ext 206
4. Check: Give a check to your Chapter Treasurer
5. Mail a Check to:
The Pap Corps
Attn: Laps for Pap
1191 E Newport Center Dr., Suite 107
Deerfield Beach, FL 33442

The Pap Corps is still accepting pictures and donations for Laps for Pap. **So, get out there and show your support and stay connected!**

SUPPORT THE NEXT SURVIVOR

MEN'S INITIATIVE EVENTS

The Comradery of Men for a Cause

The Men's Initiative enjoyed another successful year. It was formed in 2018 as a way to encourage male membership while offering entertaining and informative events. It provides a supportive environment to learn about cancer research at Sylvester Comprehensive Cancer Center from leading physicians and researchers, while enjoying inspiring stories from leading sports celebrities. Additionally, the Men's Initiative offers sports and other entertaining events. The main goals are to fundraise and enjoy the comradery of other Pap Corps Members.

continued on page 20

The Country Hoedown at the South County Civic Center on August 17, 2019.

The Football Kickoff Event between the Miami Dolphins and the New York Jets on November 3, 2019 at Hard Rock Stadium

This is an amazing group of men who are uniting to help raise funds for cancer research...

Sam Jones - Boston Celtics Hall of Famer

The 2nd Annual Men's Initiative Health Symposium

Howard Levine, a Pap Corps Member and Men's Initiative Member is quoted as saying "This is an amazing group of men who are uniting to help raise funds for cancer research, while also forming strong friendships and getting the opportunity to learn about important health issues in way that is geared for us guys".

The following events were organized by the Men's Initiative:

- The 2nd Annual Men's Initiative Health Symposium
- Country Hoedown
- Football Kickoff Event - between the Miami Dolphins and the New York Jets

The 2nd Annual Men's Initiative Health Symposium was held at St. Andrews Country Club. It was packed with men ready to learn more about men's health issues and hear from a sports star. The featured speakers were Dr. Sanoj Punnen, Dr. Bruce Kava, Dr. Ranjith Ramasamy, Dr. Steven Lewis, and retired Boston Celtics Hall of Fame, Sam Jones. The symposium was complemented by a delicious breakfast.

The Country Hoedown was open to women and men and welcomed members and non-members alike for a fun-filled night, including a BBQ dinner, line dancing lessons from The Delray Ballroom, a photo booth, and two-stepping to The Rodeo Clowns Band. The sold-out event was enjoyed by all. Many people asked when

the next Hoedown was going to happen.

The Football Kickoff Event between the Miami Dolphins and the New York Jets was a sports packed day. It included a ticket to the game, transportation to and from the stadium, food and drink, and a group photo on the field at the Hard Rock Stadium. Even though only one team won, the attendees enjoyed an action-packed event!

The Men's Initiative has generated terrific results. It has increased The Pap Corps' male membership from 12% to 17% in just one year, an increase of over 41%!

Many thanks to the following Members of the Men's Steering Committee:

- Elliott Booth
- Dr. Steven Lewis
- Ed Dinter
- Dr. Michael Schoenwald
- Harold Weiss
- Toni Casselli
- Marshall Adelsrein
- Howard Levine
- Stephen Arbit
- Larry Carlton
- David Orkin
- Louis Sender
- Jay Goldsamt
- Richard Grable

The Pap Corps is grateful for your contributions and efforts to help the Men's Initiative increase men's involvement and develop all these engaging and successful events.

We look forward to more participation from the male Members of The Pap Corps.

um at the St. Andrews Clubhouse on February 6, 2020

SPREADING THEIR WINGS & SPREADING THE MESSAGE

The Pap Corps Butterflies

Butterflies represent endurance, change, hope, and life. The Pap Corps had custom butterflies created in Pap purple and included a sticker with The Pap Corps logo. Each butterfly was perched on a garden stake and had lively wings that flapped in the wind. The butterflies were sold to support cancer research and the next survivor.

The Pap Corps secured a kiosk at Town Center, Boca Raton, to sell the garden butterflies. The kiosk was open from January 5th through February 29th and was staffed with Pap Corps Members, friends, and Main Office Staff. People volunteered for 3 to 4-hour shifts (2 volunteers per shift). We would like to thank Simon Property Group and their staff for all the help with the kiosk at the Town Center. Many thanks to everyone who volunteered at the kiosk, especially those who sacrificed their evenings, Saturdays, and Sundays.

These beautiful butterflies can be seen in thousands of gardens, yards, and many other places throughout Florida. They have been a source of inspiration and joy for many people.

A FOUNDATION OF SUPPORT, ONE BRICK AT A TIME

THANK YOU FOR YOUR PATIENCE AS WE CONTINUE TO GROW OUR BRICK PROGRAM

A CHARITABLE NEW YEAR'S EVE FOR PAP CORPS

While some Palm Beachers celebrated the New Year at area parties, others rang in 2020 fighting cancer. More than 150 people attended Meat Market's party benefiting The Pap Corps.

A purple carpet welcomed guests as they arrived. In the dining room, guests dined on lobster tails and filet mignon while those in the lounge area had their pick at the food stations available. A dance floor opened for music and ringing in the New Year with a countdown.

TEMPTATIONS SINGER HEADLINES THE PAP CORPS INAUGURAL GALA AT THE BREAKERS

Pap Corps supporters were in for a night of bubbles and tunes at the first-ever "Imagination" gala.

More than 125 people attended the gala at The Breakers in support of Cancer Research. The evening kicked off with a Veuve Clicquot Champagne reception in the Magnolia Room accompanied by the classical and contemporary tunes of a saxophonist.

The gala's highlight was the entertainment: A Temptations Revue featuring Theo Peoples, a former lead singer of the Temptations, who took the stage and performed chart-topping songs such as "My Girl" to "Just My Imagination."
