

The Pap Corps[®]

Champions for Cancer Research

Nonprofit Donor Report 2025-2026

Today's Research Brings Tomorrow's Cure!

www.thepapcorps.org

Certificate of Appreciation

With deepest gratitude, we thank you for your generous support of cancer research. Your commitment fuels hope, advances life-saving discoveries, and brings us closer to a world without cancer.

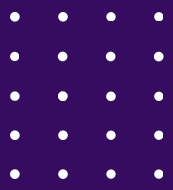

Thank You
For Your Support ♥ ♥ ♥

The Pap Corps Board of Directors
2025-2026

LETTER FROM THE CHAIR

SUSAN DINTER

Dear Champions for Cancer Research,

This has been a stellar year in our fundraising, and that is because of all of you. The words "Thank You" sometimes don't seem quite enough to show someone how much they are appreciated. And, all of you are greatly appreciated. The Pap Corps could never be successful without you.

By your generosity to The Pap Corps, you have created a legacy for yourself. This legacy will say to future generations that you cared enough about their good health and well-being, that you were willing to make sacrifices in your giving. Your giving helps Sylvester Comprehensive Cancer Center find new and better ways to treat cancer by providing them with funds for more research. Who knows how many you are helping or have already helped?

Each member and donor plays an important role in the success of The Pap Corps. You have shown that you are willing to contribute and do your part. As a cancer survivor, my appreciation for you is endless. I cannot imagine The Pap Corps without you.

So, "thank you" for all that you do.

Susan Dinter,

Susan Dinter
Chair - The Board of Directors

OUR MISSION, VALUES & HISTORY

Mission: To raise crucial funds for cancer research to benefit Sylvester Comprehensive Cancer Center, University of Miami Miller School of Medicine.

Vision: To imagine - and help create - a world without cancer.

History: In 1928, Dr. George Papanicolaou, a pioneer in early cancer detection, introduced the world to a technique used to diagnose cervical cancer that he called "the Pap smear". In 1952, he convinced the National Cancer Institute to conduct a massive trial using his Pap smear technique. Also, in 1952, a small group of courageous cancer cure activists driven by the lack of early detection and treatment of cancer, formed a group whose single goal was to raise money for the Dade County Cancer Institute. The NCI trials continued and eventually led to the Pap Test, which saved countless women's lives.

At the same time, the cancer activists continued raising funds for researchers to fight all types of cancer at what had become the Miami Cancer Research Institute. In 1961, Dr. Papanicolaou was invited to Miami to lead and develop the Institute which was renamed the Papanicolaou Cancer Research Institute in 1962. The cancer activists formally became The Papanicolaou Women's Corps and are now known as The Pap Corps Champions for Cancer Research.

The Pap Corps Champions for Cancer Research

Thank you to all the Pap members for your unwavering support and dedication. Your commitment, generosity, and teamwork make everything we accomplish possible. Because of you, we continue to make a meaningful difference, and your efforts are truly appreciated.

*The Pap Corps
Board of Directors*

DR. DANIEL ISOM HONORED WITH THE PAP CORPS CHAMPIONS FOR CANCER RESEARCH ENDOWED CHAIR

The honor recognizes Dr. Isom's impactful research in molecular and cellular pharmacology, which contributes to the development of promising, new cancer-fighting drugs.

The Pap Corps Champions for Cancer Research advanced its mission to create a world without cancer and awarded its third endowed chair to a distinguished member of Sylvester Comprehensive Cancer Center, part of UHealth – University of Miami Health System. With an unwavering commitment to supporting cancer research dating back more than 74 years, The Pap Corps has been a proud partner of Sylvester, raising more than \$110 million. This philanthropic funding has helped fuel scientific progress by supporting hundreds of research projects, bringing Sylvester's world-renowned physicians and scientists closer to uncovering the causes and potential treatments and cures for this terrible disease.

"This is such an exciting time as we've made several recent discoveries that are opening new and unexpected avenues of exploration in basic cancer research," said Dr. Isom. "Because of the type of research we do, our experimental approaches and outcomes have pan-cancer relevance, similar to The Pap Corps' pan-cancer philosophy. We are a perfect match in my opinion."

Susan Dinter, chair of The Pap Corps Board of Directors, reiterated that sentiment noting that when she first met Dr. Isom she was impressed with his strong commitment to cancer research.

"To me, Dr. Isom's endowed professorship is a perfect match between The Pap Corps and Sylvester," said Dinter. "For 72 years, we have never given up the hope that through our determination, our passion and our spirit, we will make our vision of a world without cancer a reality. Our mission to s

Sylvester Director Stephen D. Nimer, M.D., took the opportunity at the chair ceremony to thank The Pap Corps for their tireless support and recognize Dr. Isom for his accomplishments. "The Pap Corps is the longest supporting group for Sylvester and the most generous. Their unwavering support has had an amazing impact on cancer research at Sylvester, advancing our mission to prevent, treat and cure more cancer patients," said Dr. Nimer, who is also the Oscar de la Renta Endowed Chair in Cancer Research and executive dean for research at the Miller School. "To receive The Pap Corps Champions for Cancer Research Endowed Chair is a great honor and reflects a steadfast belief in the potential, talents and accomplishments of Dr. Isom."
